# All India Institute of Medical Sciences | Digital Assessment

TCS iON Digitized end-to-end entrance examination process right from Biometric registration to test center management to practice free and fair exam for all candidates.

## Challenges

- Irregularity in candidate mapping process
- Security risk in manual and paper-pen examination for candidates

## Solution Delivered

- Conducted MBBS examination online with total of 1,94,311 students appeared
- Covering 153 cities across 398 centers
- Biometric registration minimizing candidate impersonation

## Engagement

- Digitized end-to-end entrance examination process.
- Flawless Candidate mapping process
- Mitigation of exam fraud through secure practices

## Impact

- Ability to quickly de-map and re-map a candidate whenever needed
- Better Test center management in terms of invigilation and readiness of the staff at the local center
