

# Case Study – KNR University of Health Sciences

## Business Challenge

- Long exam planning cycle time of 6-8 months
- Delays in exam result processing
- Logistics of question paper and high operational cost
- Malpractice attempts, QP leakage and ensuring confidentiality

## Solution Delivered

- TCS implemented TCS iON Digital Exam and TCS iON Digital Marking to convert offline exam process to online from application management to results delivery
- Digitized student application and automated allocation process
- Encrypted and secured question paper creation.

## Value Created

- 100% elimination of QP leakage, tampering with marks.
- Exam result processing time reduced from 30 days to 3 days.
- Reduced human efforts and costs in conducting exams.
- Zero delays in all stages of examination with monitoring and reports
